

Reed sensor FT03 series

Model specification

- Long life and high reliability
- Widely used in the field of piston position detection and door position detection of cylinders

Model specification

NO	FT03DLO		
----	---------	--	--

Specifications

Supply voltage	10...30 VDC	Insulation resistance	$\geq 50M\Omega$ (500VDC)
Contact capacity	1W	Vibration resistant	Complex amplitude 1.5mm 10...50Hz
Load current	$\leq 50mA$		(2 hours each in X, Y, and Z directions)
Ambient temperature	-10...70°C	Protection degree	IP67
Environment humidity	35...95%RH	Dimension	3.2*3.9*23mm
Switching frequency	200Hz	Housing material	PBT/ABS
withstand voltage	1000V/AC 50/60Hz 60s	Connection type	2m PVC cable

Dimension
